- Live Webinar - Two 3 hour sessions
 - *Includes: - A detailed PDF Learning Manual
 - Unlimited Complimentary Coaching

Testimonials:

*"The course exceeded my expectations and provided tools that I did not know existed. I use outlook extensively but was simply an intuitive user of the program. The tools and techniques that I learned in the course are game changers for my productivity and organization. The formal training is a must for any professional looking to enhance their time management skills. As an added benefit, the group training allows teams to enhance their collaborative communication skills. The hidden power of outlook and capabilities for group organization will change your work flow and project management. The key comment that I heard in my training session was "why didn't I learn this sooner". **Tom Newell (Regional VP and General Manager, Ontario - EMCO Corporation)***

"The training opens up so many doors to efficiencies improvements, in particular when it comes down to organizing and time management."

"Training was great. really taught me how to use outlook to my advantage as well as keep me organized and on task."

"This workshop has provided me with practical things I can do every day to not only keep my Inbox under control but to also stay on top of my priorities and other work commitments."

"Totbox' Outlook workshop should be a mandatory course. It helps every employee prioritize properly, delegate and manage time more effectively. This is an excellent job management workshop - not only an Outlook tool course."

"This course will save hours of wasted time every week. Thanks!"

"Great value-add for the majority of EMCO teammates."

"This was the most practical training I have had in my time at EMCO."
